The VIVERO Times

February 2024 • Vol 4, Issue 5 • World Edition • Editor-in-Chief: Barkha Gulani

The Chairman's Note

We are happy to present to you the latest edition of our corporate newsletter - The Vivero Times. Here, we share with you the new developments at our schools pan India.

The highlight being the launch of the brand new Motor Yard at Vivero, GTP, designed to boost your child's physical development and motor skills in a playful setting. You will also get to relive the joy of our recent events and celebrations: Halloween, Christmas Fete, Culmination Day, Open House, International Food and Cultural fest and many more. These events embody our commitment to a holistic education in line with the school philosophy.

K2 Environment Exploration

At Vivero, children are placed at the center of the learning process, recognizing their unique interests, strengths, and developmental needs. It emphasizes active exploration, hands-on learning experiences, and opportunities for self-directed discovery. Every child is viewed as strong, powerful, rich in potential, driven by the desire to grow as a lifelong learner. Thus, our children are encouraged to explore the world around them through investigation and discovery.

Our child centric curriculum is a comprehensive educational framework designed to provide young learners with a holistic and enriching preschool experience. It is grounded in research-based principles of early childhood development and aims to nurture children's cognitive, social-emotional, physical, and creative abilities.

The curriculum is designed to integrate various domains of learning, including literacy, numeracy, knowledge and understanding of the world, creative arts, and physical development. This interdisciplinary approach allows children to make connections across different subject areas and develop a well-rounded understanding of the world around them.

Our learning pedagogy gives you an opportunity to meet a community of confident and compassionate learners at Vivero - 'The Children'! The experience the core values and our unique inquiry-based curriculum and don leadership roles to move on an exciting journey of progressive education!

The Inside Scoop

GTP Gross Motor Yard

A Playground for Endless Imagination and Exploration

We are excited to announce the inauguration of our new outdoor play area here at Global Tech Park. As a part of our ongoing commitment to providing enriching experiences for your child's development, we have invested in creating a vibrant and stimulating outdoor environment that complements our indoor learning spaces. Our outdoor play area is designed to stimulate curiosity, creativity, and problem-solving skills, fostering your child's cognitive development through exploratory play and hands-on experiences.

The safety of your child is our top priority. Our outdoor play area is designed with age-appropriate equipment and safety measures to ensure a secure and supervised environment for exploration and play. Embracing the beauty of nature, our outdoor play features natural elements such as plants & greenery providing children with opportunities to connect with the environment and engage in sensory-rich experiences.

Promoting active lifestyles and physical fitness, our outdoor play area encourages gross motor activities such as climbing, jumping, balancing, and running, helping children develop strength, coordination, and agility while enjoying the fresh air and sunshine. We believe that the addition of this new outdoor play area will further enhance the holistic development of the child and create memorable moments of joy, discovery, and growth during their time with us. We look forward to seeing children embrace the wonders of outdoor play and thrive in our new outdoor environment.

Some Sunshine is Always Good for the Mind and Body!

Well Equipped with Age Appropriate Outdoor Equipments

Wakad Traffic Park

We are excited to announce the launch of a new and innovative addition to our preschool: a specially designed Role Play Traffic Area for our young learners! As part of our ongoing commitment to providing enriching and immersive learning experiences for our children, we have created a dynamic space where children can engage in imaginative play. This area will Provide Hands on Learning, Instil Safety Education, Provide Role playing opportunities & offer a fun and engaging learning environment where children can learn through play, boosting their confidence and empowering them to become responsible road users.

Cycle Day, Bangalore

K1 K2 Children Excited to Go Cycling

What better way to celebrate Republic day than with a Cycle day event. Our enthusiastic K1 and K2 children embarked on a cycling event around the school to mark the 75th Indian Republic Day. They were accompanied by equally enthusiastic parents and teachers. Children mounted the hand crafted tri-colour on their cycles and happily pedalled along the road with posters, creating awareness about the advantages of cycling for health and civic management.

Ready Set Go!

Camping Night

The much-awaited Camping Night hosted at Vivero was an evening of fun, thrill, and enjoyment. K1 and K2 children were filled with excitement as they arrived at school in the evening for a delightful camping night. The enchanting camping ground was ready for the children with a make-believe bonfire, snug tents in a jungle-themed setup, and an enthralling fishing activity that brought joy to their faces as they successfully hooked onto fish. Gathered around the camp bonfire with blankets, the children enjoyed a cosy evening filled with songs, rhymes, and stories as they relished popcorn.

The adventure continued as K1 children embraced a flashlight scavenger hunt, eagerly searching for items like tents, bugs, lanterns, and bonfires on their bingo list. The highlight of the night was unquestionably, roasting of the marshmallows on a pretend barbecue grill, savoured beneath the starry sky. Engaging games like Tic Tac Toe and making Animal Paw Prints in play dough added to the merriment. K2 children had fun with a spirited game of Spin the Bottle and Completing a Task.

As camp explorers relished a hearty meal around the camp table loaded with their favourite foods- sandwiches, cakes, cheese cherry pineapple sticks, and their favourite lemon drink. Later, they were captivated by a shadow puppet theatre performance of "The Gruffalo." The event concluded with the enchantment of star gazing, where children eagerly sought out stars in the clear night sky. Exhausted but content, the little campers headed home with happy hearts and sleepy eyes.

Halloween

Halloween, the global festival was celebrated with much fun and fanfare by the children of Vivero on 31st October. The excitement and enthusiasm were at their peak on the day of the celebration. The children were dressed in their spookiest best for Halloween. Children came dressed up as ghosts, witches and other prominent Halloween characters. They helped the teachers in enhancing the look of the school and making it look 'halloweeny' with witch hats, cats, bats and spiders! The children were super excited to go Trick or Treating to their friend's house, carrying the goody bag they beautifully hand crafted earlier in class.

The children and the teachers were extremely thrilled with the warm welcome and amazing hospitality extended by the parents. The houses were so beautifully decorated with lights, bats, ghosts, pumpkins, et al, providing a complete feel of Halloween.

Parents were sportingly dressed in their Halloween attire which added to the fun element. From the moment of arrival till the last minute, the children were made to feel special and engaged in various fun activities planned for them. They were treated to some yummy treats with spooky faces on them, specially made for our children. They were so well taken care off. We extend a big thank you to all the parents who contributed their time and effort to ensure the success of the event. We thank our parents for their warmth, kindness and hospitality. We were deeply touched to see the pains taken by them to make this day so special for our children.

Excursion to the Farm

Excursions form a vital part of a child's early education. They introduce a child to a range of different experiences and enable them to gain a sense of the world in which they find themselves. Excursions encourage a child to embrace the unfamiliar and often, every sense is employed in observing and understanding what they're experiencing.

We at Vivero create these wonderful experiences for our children through excursions. Vivero Kalyaninagar went on a field trip to the Wadia Stud Farm on 1st December 2023. Our children were overjoyed to take the bus ride from school to the farm on a winter Friday morning. Our Pre-Nursery children are learning about, 'Life on the farm,' in their current unit and they were very excited to see the cows, bullocks, calves & horses at the farm. Our Nursery children are learning about different habitats, and they too saw the stables. The K1 & K2 children inquired about the life cycle of a horse and watched the stallions, mares & foals in the stables. They got a wonderful opportunity to feed the horses too! Children also collected natural material like, hay, fodder and more.

All the children enjoyed their mid-morning snack at the farm under the shade of huge trees, and watched the horses graze near them. It was an enriching new experience full of excitement and learning.

Loving Hands

Feeding Hands

Excursion to the Old Age Home

As a culmination of the grand Christmas Fete celebration, Vivero Powai planned a visit to the 'Little Sisters of the Poor' to hand over the proceeds collected from the Fete. A cheque of the amount collected along with some goodies was presented by the children to Sister Ezabella at the old age home. Visiting an old age home can be a very emotional experience for young children. Our teachers spoke to the children in advance and sensitised them towards elderly people they would meet on the visit. The Kindergarten children sang the song 'You are my sunshine' that helped cheer all at the home. The residents of the old age home had conversations with the children about their own life experiences, their families, and occasions that bring them joy and laughter. The children could connect immediately with the residents as the elderly strongly reminded them of their own grandparents.

A visit to an old age home can also be a humbling experience. This experience helped children to empathise and have compassion for the elderly from an early age. It was a lovely experience for all of us at school as well as we got the opportunity to engage with the people at the old age home forming warm memories that will last us a life time.

Excursion to the Handmade Paper Factory

As part of their ongoing exploration of "Materials in the Environment", K2 children embarked on an educational journey to the first handmade paper factory in India. This visit was a fascinating experience for the children as they witnessed the intricate process of paper production, starting from sorting and shredding to beating, sieving, pressing, drying and finally rolling and cutting the paper.

K2 children were amazed by the various stages involved in crafting handmade paper. The factory tour provided a hands-on learning experience for the children to understand the aspects of handmade paper production and its positive impact on the environment.

Apart from observing the paper-making process, the children had the chance to explore paper products such as paper bags, gift paper, diaries, lanterns, paper Mache' Ganeshas, pencils and pen stands.

The visit not only contributed to the understanding of materials but also sparked creativity and appreciation for the craftsmanship involved in paper production. In a heartwarming gesture, K2 children extended their gratitude by presenting a uniquely crafted gift-a hand painted canvas to the staff. Overall, the excursion proved to be an engaging and enriching experience for our children.

Culmination Day, Bangalore

Culmination Day at school was a memorable and rewarding experience for our children, parents and facilitators. It provided an opportunity to celebrate the children's accomplishments, showcase their talents, and reflect on the meaningful journey of learning and discovery throughout units of inquiry.

Our children showcased their learning and creativity through captivating performances, including songs, dances, and skits. Each performance was a testament to the children's confidence, enthusiasm, and hard work. Interactive learning stations allowed children to demonstrate their knowledge and skills in various subject areas, including literacy, numeracy, knowledge and understanding of the world & creative development. Parents played integral role in the culmination day event, actively participating in activities, interacting with their children, and expressing pride in their achievements. Their presence and support added to the festive atmosphere and strengthened the sense of community within our school. We look forward to building upon this success in the years to come, continuing to inspire and empower our students to reach their fullest potential.

Pre- Nursery & Nursery Children Glorified Singing Five Little Monkeys Rhyme

Culmination Day, Pune

On 3rd February 2024 we invited our Pre Nursery and Nursery parents to witness the learning journey of our Unit 3. Our Pre Nursery had explored through Life on the Farm and Nursery children had learnt about Animal Habitats through the unit.

Culmination is where our young learners share the knowledge and understanding of their investigation and celebrate their learning. Children are actively involved in the planning of the culmination. They decide what to make, how to present the information with guidance from their teacher.

Our young learners at Vivero were a true inspiration to many as they navigated through the various displays and walked their parents through all the hard work done during the unit. Our Pre Nursery children came dressed as their favourite farm animal and the Nursery children were ready to go on a habitat hunt with their binoculars. We began our event with an animal parade and moved to the music and movement segment where our parents and children danced to some fun filled farm songs. The Pre Nursery parents and children then went on to explore the farm elements, displayed. The parents were given cue cards, to engage in meaningful conversations with their child. Learning domains brought the classroom learning in a very different light where all our parents were happy and surprised to witness the knowledge and understanding of their children.

As children reviewed what they had learnt and done, they reconnected with experiences, synthesized information and determined which aspects were the most important to share with others.

International Food and Cultural Fest

Vivero Indiranagar hosted the most awaited event of the year – 'The International Food and Cultural Fest' which was a Global Journey of Fun, Culture, and Giving. This extraordinary event transcends boundaries, bringing together the diversity of cultures from around the world for a day of fun and laughter. Here, we delve into the enchanting world of this multicultural extravaganza, which captivated both children and adults alike.

The entire school was decorated and different corners were set up to represent different countries to portray the Cultural Festivals Around the World, right from the main entrance where the Maharaja welcomed all the guests . Some of the many countries highlighted at the event were:

India - Chaukabara:
The Indian corner of the carnival was adorned with vibrant colors and intricate patterns, setting the stage for the Chaukabara game. Children giggled and hopped as they played this traditional Indian game of hopscotch, learning about the rich heritage of the subcontinent. Children were thrilled to participate in the Floret Toss game that was inspired by the Kashmir region in which the children had to toss paper flowers in decorated Shikaras made with cardboard.

China - Chopstick Game and Lantern Craft:
In the heart of the carnival, the Chinese section dazzled with the Chopstick Game, a challenging yet delightful experience where children attempted to master the art of using chopsticks by balancing paper balls from one bowl to the other using chopsticks. Meanwhile, the lantern craft station allowed kids to create their own colorful lanterns, taking a piece of China home with them.

Japan - Cherry Blossom Photo Booth and Sunset Set-Up:
The Japanese cherry blossom theme was both breath taking and serene. The cherry blossom photo booth featured a stunning backdrop, allowing families to capture memories surrounded by delicate pink blooms. As the sun began to set, a serene sunset set-up under the cherry blossoms offered a moment of calm in the bustling carnival.

Mexico - Football Game and Pair the Boots Game:
The Mexican section was a hub of activity with a lively football game around a Cacti maze to score a goal. For those seeking a more leisurely experience, the "Pair the Boots" game showcased colourful cut outs of matching boots, a perfect fit for young children. Nearby, a horse and bull stable, complete with hay, transported visitors to the Mexican countryside.

France - Decorate the Cupcake and Labyrinth Game:
The French corner offered a dash of sophistication and creativity. Kids decorated cupcakes with colourful frosting and sprinkles, and they navigated through a maze to help Cooney (the national animal of France) to reach its burrow game, stimulating their problem-solving skills.

Egypt - The Egyptian section transported visitors to ancient times with a life-sized pyramid door entrance, mysterious hieroglyphics, and a treasure hunt game that had children hunting for hidden treasures. The "Match the Cartouche" game educated children about the fascinating world of hieroglyphs and cartouches.

Arab - The Arabian section offered a blend of adventure and Arabian Nights magic. Children aimed for success in the "Ring the Genie" game and posed in the Arab-themed photo booth. Meanwhile, camel and coconut tree cut outs added an exotic touch to the atmosphere. In addition, pottery stalls allowed children to unleash their creative potential, while a few food stalls offered yummy delights for every palate. The tattoo corner added a touch of flair, and allowed them to decorate their palms with a Tattoo of their choice. The carnival also boasted of 2 puppet shows: Momotaro and Tiki Tiki Tembo, a visual spectacle that mesmerised the audience, with teachers taking on the role of puppeteers. However, the evening's highlight was the spectacular Mexican dance performance by the K2 children. Dressed in traditional costumes, they moved to the rhythm of Mexican theme music, enchanting the audience with their lively and colourful performance.

Another commendable aspect of the carnival was the entrepreneurship initiative through the "Art Gallery." Children's artwork was displayed and sold, with the proceeds earmarked for donation to the Shishu Mandir Orphanage.

In the spirit of unity, education, and celebration, the Mega Carnival at VIVERO was an astounding success. It allowed children and their families to embark on a global journey, experiencing the richness of cultures from around the world while also giving back to those in need. This event exemplified the power of early education in fostering curiosity, appreciation for diversity, and the importance of community support.

Children Engaged in making Christmas Decorations

The Santa Corner

Christmas Fete the much awaited annual event was organized at school on the 16th of December, 2023. It's an event organized with an objective of reaching out to the less privileged members of the community. The fete is a 'Friends of Vivero' led event focusing on generating funds to be donated in charity. This year too, the Vivero Christmas Fete continued its tradition of supporting a chosen NGO. The humble collection of Rs. 61,742 from the event was donated to 'Little Sisters of the Poor'. The NGO was carefully selected to align with the principles of our school. This NGO works tirelessly for the elderly and homeless, and we are happy to contribute to their noble cause. The Christmas Fete this year was with a twist as it was held in the evening. The weather was amazing with cool breeze blowing. Our school was merrily dressed in Christmas colours, with balloons, stockings, wreaths, and the Santa craft made by the children that added to the décor. The ferry lights gave a joyous touch to the proceedings. The games stalls, activities like balloon sculpture, tattoo making, bouncy castle, and the chocho train grabbed the attention of children. We had some mouth-watering food items like cake pops, cupcakes, biryani, kababs, rolls, popcorn, candy floss and the all-time favourite - chaat counter that was enjoyed by all age groups. The 'Furtados school of Music' presented Christmas carols and everyone swayed to the melody. The flash mob was a huge crowd puller. Everyone present enjoyed themselves to the fullest. We are grateful to the core committee comprising of our parents who did a brilliant job in putting together such a magnificent event.

Vivero Open House

The Annual Open House in January, held across all our Vivero centers was a resounding success, offering an unparalleled opportunity for parents and guardians to immerse themselves in our vibrant school community, explore our exceptional facilities, and gain deeper insights into our renowned programs. We were thrilled to extend a warm welcome to both our cherished current families and prospective newcomers, as well as esteemed members of our wider community.

This event served as a window into the very essence of our educational philosophy, offering a captivating journey through our school's ethos and a picturesque tour of our campus.

Central to the experience were the engaging stations highlighting our core learning domains, where our young scholars "dazzled visitors" with their interactive demonstrations. Parents were encouraged to actively engage with our students, fostering meaningful dialogue and gaining insights into their child's educational journey. Our 21st-century skill stations, showcased the innovative intersections of technology and culinary arts, which left attendees inspired and impressed.

It was truly heartening to witness parents express their gratitude for the opportunity to witness their child's growth and development, as they confidently took ownership of their learning journey. As we move forward, we remain committed to celebrating and nurturing every student's achievements, fostering a culture of collaboration and shared responsibility for their success.

The Open House was not merely an event but a celebration of our dedication to empowering the next generation of leaders, thinkers, and innovators - a testament to the power of education at Vivero.

Vivero Summer Lab

Get ready to dive into a world of excitement and adventure with Vivero Summer Lab. Our three-week summer camp is specifically designed to ignite the imagination, inspire creativity, and create unforgettable memories for the Sunshine Explorers - our little ones aged 2 to 4 years and Rainbow Rangers - our dynamic 4 to 6 year olds. Each week is carefully crafted to immerse your child in a unique theme, promising endless fun and learning opportunities.

Week 1: Eco-Adventures

Our adventure begins with Week 1's Eco-Adventures, where your little ones will dive into the wonders of the natural world. From nature walks to eco-friendly crafts, we'll inspire a love for the environment while nurturing your child's curiosity and appreciation for the world around them.

Week 2: A Circus Spectacular

Step right up to Week 2's Circus Spectacular, where magic comes to life! Your child will dazzle and delight as they learn circus tricks, create colourful costumes, and discover the joy of performance. Get ready for a week filled with laughter, excitement, and plenty of circus-inspired fun!

Week 3: Let out the S.T.E.A.M!

In Week 3, it's time to unleash the power of S.T.E.A.M. (Science, Technology, Engineering, Arts, and Mathematics)! From hands-on experiments to innovative art projects, your child will explore the fascinating world of S.T.E.A.M. concepts in a playful and engaging way. Watch as their curiosity sparks and their creativity soars during this dynamic week of learning and discovery.

But wait, there's more! Each week will also include our signature sensory adventures, creative crafts, yoga and mindfulness activities, delicious snack breaks, and relaxing cool-down sessions to ensure a well-rounded and enriching experience for your child.

And let's not forget the grand finale – our 'Picnic Party' to celebrate the culmination of three amazing weeks at Vivero Summer Lab! It's a day filled with games, laughter, and delicious treats, where cherished memories are made and friendships are formed.

Don't miss out on this incredible opportunity to make your child's summer unforgettable. Enrol them in Vivero Summer Lab today and watch as they embark on a journey of discovery, creativity, and fun!

Parent Chronicles

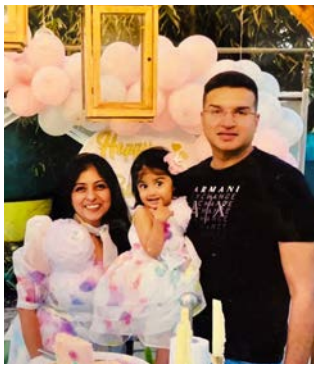
Vivero Parent Testimonials

We are writing this testimonial to express our immense gratitude and satisfaction with Vivero International Preschool. Our daughter, Nirvi Sabu , had the privilege of attending Vivero for her K1 class, and it has been an incredible experience for her and our family.
From the moment we first visited Vivero, we could sense the warm and nurturing atmosphere that the school provides. The teachers and staff create a safe and welcoming environment where our daughter felt comfortable and excited to learn every day. The care and attention given to each individual child is truly remarkable.
One of the aspects that impressed us the most about Vivero is their commitment to providing a well-rounded education. Our daughter is exposed to a diverse range of subjects and activities that foster her curiosity. The curriculum is both challenging and age-appropriate.
Moreover, the dedication, patience, and passion for teaching of the teachers at Vivero are evident in every interaction we have had with them. They go above and beyond to create innovative and hold interactive lessons that cater to each child's unique learning style. Our daughter has thrived under their guidance and is developing a strong foundation in various academic areas.
In addition to academics, Vivero also emphasizes the importance of character development. Our daughter has been taught essential values such as kindness, respect, and empathy. The school promotes a sense of community and encourages students to collaborate and support one another. We have seen firsthand how these values have influenced our daughter's behavior and how she interacts with her peers.
Communication between the school and parents is excellent at Vivero. We receive regular updates on our daughter's progress, and the school encourages open lines of communication through Illumine. This partnership has allowed us to actively contribute to our daughter's educational journey and has given us a deep understanding of her growth and development.
We highly recommend Vivero to any parent searching for an exceptional educational institution for their child's kindergarten years. The caring and dedicated staff, the diverse and stimulating curriculum, and the emphasis on character development make Vivero International Pre School an outstanding choice. Our daughter's time at Vivero has been transformative, and we are confident that the school will continue to positively impact the lives of many more children in the future.
Thank you, Vivero, for providing our daughter with a nurturing and enriching experience that will undoubtedly shape her future.

Archana Anand and Sabu PS, Parents of Nirvi Sabu

Our child has been going to Vivero International since a couple of months. The school is very well run with excellent infrastructure and great facilities.
We love that they follow a learn with fun approach with a blend of indoor and outdoor activities plus experiential learning. The best part of the school is its teachers and the support staff. Everyone works as a team putting their 100% to provide a joyful, safe and nurturing environment to kids.
A big shout out to the class teacher who has been very supportive during the transition period of my child and a special mention to the rest of the staff for always being there when kids need additional support.

Dipti Jain and Vinit Ratna, Parents of Advit D Ratna



Embarking on a voyage of discovery- Vivero!
Like any other parents, we were no different and started with immense research about various methods of teaching viz, Montessori, Waldorf, Reggio Emelia and the choice of schools around before we could decide on our daughter's very first school. The decision was a little eased out by meeting another toddler who lived in the same community and her etiquette and mannerism were nothing less than impressive which her parents owed to her schooling at Vivero.
We enrolled our daughter with Vivero last year and are very satisfied with the growth and learnings we have witnessed in her in this one year. She pleasantly surprises us most of the days by talking about concepts which maybe basic to the grownups, yet hearing them from a three-year-old leaves you mesmerized.
One instance was when she put a seed in mud and watered it so that it germinated, and a huge tree would grow out of it. The way she explained the farm-to-fork concept, and how a seed grows to a large tree with many birds getting shelter and food from it.

The basic concept of "family" and various relations are so beautifully ingrained in the little minds to satiate their emotional need and understand the family system.
Formulating a new concept every month leaves the kids so enriched with the experiences they gather from the class conversations, creative art and craft activities around that concept, related rhymes. All of it promotes such a beautiful learning environment which certainly leaves a magnificent impact on a child's mind. For us sending our daughter to school every morning has never been a challenge, and in fact the pick-up is because she never wants to leave the premises and wants as much time as possible.

The curriculum covers various domains such as language, life skills, music, and physical education. The basic principle of environment as a teacher has seemed to work wonders. Understanding hygiene, music, eating right and healthy food, and social interaction are a few other immaculate developments. The children engage in hands-on activities that foster their creativity, and curiosity.
The teachers are super sincere. They create a warm and stimulating environment for the children to learn and grow. They also communicate regularly with the parents and provide weekly feedback on the child's progress and development.
In conclusion, Vivero has been an excellent choice for preschool education. It provides a fun and nurturing environment for the children to develop their cognitive, physical, and social skills. I am very happy with my daughter's experience at Vivero, and I look forward to seeing her grow and learn more there.

With Thanks!

Ms. Leena Dua and Mr. Nitin Sharma, Parents of Eliana Sharma

HR Movements

In our endeavor to provide high standards of education along with our purpose of shaping responsible, global citizens and passionate lifelong learners who are prepared for the 21st century, we continuously look at attracting, developing and retaining passionate and capable specialists.
