Event Report

Events at Vivero

At Vivero, every thought and action are orchestrated by our commitment towards building positive identities and respecting individual and cultural differences. This tradition continuously finds us engaged in the process of weaving diversity into the fabric of our children's everyday lives.

[Page 6>>](#)

The Chairman's Note

As we step into the brim of the 21st Century, we take a silent bow & re-affirm our purpose - 'Vivero International is committed to shaping responsible, global citizens and passionate lifelong learners who are prepared for the 21st century'.

In our pursuit to uphold our promise, we continue to foster world-class learning environments, inspiring children, making them curious and encouraging them to continue the learning process.

This year has seen us celebrate the joys of childhood through multiple events. Children and parents at Bengaluru rejoiced with 'Nam Ooru Habba' at the onset of the Navratri season. Schools at Mumbai and Hyderabad enjoyed a fascinating spooky affair during 'Halloween'.

What's the Buzz

Co Curricular Activities at Vivero

In our continuous effort to make the child's early years' journey with Vivero an experientially delightful one, we ensure that we inculcate meaningful habits and introduce healthy co-curricular activities as part of our Childcare offering.

Children are offered a wide range of co-curricular activities that are age-appropriate-Yoga sessions, Tech-Studio activities, Music & Movement, Culinary activities, Karate classes and Skating at many of our centres.

[Page 9>>](#)

HR Movements

Apart from recognizing talent and rewarding effort, Edvance Group is also constantly involved with ensuring that movements are critically handled and appropriate recruiting is done. Find out what is happening at this front in the past quarter.

The Chairman's Note

As we step into the brim of the 21st Century, we take a silent bow & re-affirm our purpose - 'Vivero International is committed to shaping responsible, global citizens and passionate lifelong learners who are prepared for the 21st century'.

In our pursuit to uphold our promise, we continue to foster world-class learning environments, inspiring children, making them curious and encouraging them to continue the learning process.

This year has seen us celebrate the joys of childhood through multiple events. Children and parents at Bengaluru rejoiced with 'Nam Ooru Habba' at the onset of the Navratri season. Schools at Mumbai and Hyderabad enjoyed a fascinating spooky affair during 'Halloween'. Vivero Movie Nights opened to 'full-houses' at few of our schools at Hyderabad and Pune. 'Christmas' & 'Winter Wonderland' carnivals were held in all schools across cities.

Our co-curricular activities are re-designed with the inclusion of the Tech-curriculum & emphasis on the wonders of Culinary art & etiquette.

Your generous, warm and passionate testimonials have encouraged us to scale Vivero and take it to new geographies while strengthening it in current locations. Pune has one more school in Balewadi. Noida is a new location. Gurgaon and Chandigarh will soon be added to the Vivero

map. Our Facebook page and the Website will give you more details.

As all of us at Vivero, now head towards the last leg of our academic season with a fresh 'zing' of energy, and a firm resolve to continue to work towards the possibility of a brighter world.

Curriculum Morning

Familiarizing parents with Vivero's philosophy

In-depth exploration of unique topics on display

Every child has a unique learning ability

Children learn best when their natural curiosity is encouraged

Learning through various units of inquiry

New parents get an insight into Vivero's unique curriculum

As an International pre-school & a new-age educational institution, we understand that it is essential to build an atmosphere of a healthy home - school partnership in order to achieve the goals of a child centric education system. We believe that to build mutual trust it is important to maintain an active line of communication and share information & address concerns on a regular basis. Hence, Curriculum Mornings at Vivero are specially planned in order to familiarize both new and existing parents with our philosophy, learning methodology, approaches and activities that children will experience through the course of the forthcoming academic year.

The Curriculum Morning gives a sneak peek into all important elements of our school programs. It serves to provide clarity on the current learnings taking place and offer the opportunity to revisit topics that highlight concerns.

Curriculum Mornings at Vivero set the precedence for a positive parent-school communication culture and re-affirms the school's ideal of transparency. Parents benefit by getting ideas from school on how to be involved in order to help and support their children. Perhaps most importantly, parents benefit by becoming more confident about the school's involvement and attention, and therefore develop a greater appreciation for the important role it plays in their children's education.

Mindfulness Workshop

Research shows that including mindfulness in daily life improves higher order thinking and children become more engaged, positive learners. As a family it is good to practice being appreciative and thankful. What we must learn is to be thankful at all times; even when times are hard.

Teachers in our school attended a mindfulness workshop, the take-aways from which are being consciously included in the classroom teachings as well. When children are disappointed about something, it is important that the teacher consoles the child with a positive acknowledgement of the feeling saying, E.g. "I know that you are upset now but can you tell me two things that made you happy at snack time?" - prompting the child to invariably think of positive instances which will undoubtedly override the current feeling. Teachers also encourage children to sit quietly and try techniques like breathing in and out during the day; little practices to remind them of how it is important to co-exist with the environment.

As parents and teachers, we often want to ease out our children's pains; but it is essential that we encourage them to contemplate how they feel rather than ignore or push it aside. When children acknowledge their hurt feelings and remember the good things, they demonstrate an open mind. Mindfulness practices help your child pay more attention to the present and understand both their feeling and that of others.

At Vivero, in-house workshops for professional development are conducted with our facilitators regularly, keeping in mind the best practices that have been recorded over the past years. These are shared and discussed in detail so that they may be implemented into our classrooms. We also invite a selected range of professionals from various complimentary fields so that facilitators can choose to learn from their expertise and advice which surely help them go that extra mile, aid them in their teaching methods and make meaningful connections.

Educators & mentors from Evolved - A holistic Training Institute that focuses on bringing mindfulness and strength based approach to School Leadership – were recently invited for workshops in Pune, Bengaluru & Mumbai. Facilitators from Vivero attended the highly rejuvenating sessions on "Mindfulness" and came back to contribute their insightful learnings in their professional and personal lives.

Nurturing Mindfulness

Learning the importance of co-existence

Mindfulness session in full swing with our learners

Professional & personal development through a mindfulness workshop for the teachers

Coming together to learn from each other

Drawing strength from each other's positive experiences

Importance of the Learning Environment

One of the strongest messages we have imbibed from Reggio Emilia, is of the importance of the role of 'environment' in the life and education of the child. The environment is always an integral part of the teaching & learning environment at Vivero. Facilitators at Vivero passionately seek new ways in which they can help young learners discover, connect with this 'third teacher' (parents and teachers are regarded as the 'first' and 'second') at all times. The goal here is, to set about an environment that stimulates tender minds and provoke their curiosity, all the while guiding them to self-assess, learn and grow in the best possible way.

Rich and Stimulating Environment

"The wider the range of possibilities we offer children, the more intense will be their motivations and the richer their experiences." Loris Malaguzzi

Bright, spacious & airy are characteristic of all the classrooms and learning spaces at Vivero. The focus here is to create welcome spaces where children feel comfortable and secure rather than in-awe or intimidated.

Drawing inspiration from Reggio Emilia at all times, the resources, learning materials and manipulatives are more often relatable & natural. Things that are age-appropriate and organically available are sourced to add to the daily learning arena. The familiarity of the materials and their natural sensory appeal adds to the provocation and, stimulates the curiosity of the child to encourage them as they come forth, investigate and discover under the guidance of the facilitator in a warm environment, much like home.

Ateliers & Learning Corners

A great deal of thought and planning goes into the construction and operation of a Vivero environment. Every little detail at a Vivero Pre-school and Childcare is designed with mindful attention to ensure that the process of learning is made more interesting, engaging and productive for children. 'Ateliers' or specially staged environments are often based on a theme that arouses the child's interest and steers them towards navigating and discovering new experiences which add to their self-learning. Familiar corners like a 'Reading Nook' or a 'Pretend Play' section can add wonders to a child's knowledge and sense of expression.

Visible Documentation

Rich & authentic documentation is another feature of the learning environment at Vivero. Not only does it immediately capture children's attention, but it also makes it easily relatable and once again a familiar platform for further learning & discovery. Display of children's artwork or learning records act as a means of communication and makes parents aware of how their child is thinking and learning. In turn, documentation acts as a powerful addition to the environment at school allowing children to immediately relate to their own work or work done by their peers, take ownership of their learning and feel a sense of achievement.

Beyond the Classroom

The outdoors is but an extension of the learning spaces for children at Vivero. Co-curricular activities at Vivero range from special age-appropriate sessions of physical sports, martial arts, dance & music; and we have also recently integrated Technology & Culinary experiences into our programmes curated for the early years. Learning becomes more interesting with active engagements and this is where the 'role of the environment' becomes intrinsic to the very act of learning. Planned field-trips to bring about environment awareness & civic issues are a crucial part of the curriculum which helps children revisit a familiar place with a clear perspective towards better understanding of the subject.

With every thoughtfully designed activity & method of teaching-learning the environment at Vivero has become a kaleidoscope filled with the colourful skills of a global 21st century citizen in the making; a true Vivero - a place or an environment where life is nurtured.

The Inside Scoop

New Vivero Alert!

Vivero International, Balewadi, Pune

Vivero International Pre-school and Child Care at Balewadi is located in the heart of the Baner – Balewadi stretch. Keeping to the roots of our Reggio philosophy, the 'Image of the Child' is at the centre of all that we do. The school is designed to leverage and facilitate the best pedagogical practices keeping in mind how best the child can explore inside as well as outside the classroom. Our classrooms are meticulously designed to enhance creativity and learning outcomes of our children. They are well lit with lots of natural light coming in and offer rich provocations that are age appropriate.

The school outdoor play area is safe, secure and well equipped with tricycles, cars, slides and trampoline. The ateliers and concept based learning corners set up at strategic locations make for extensive exploration and multi-dimensional learning opportunities for our young learners. The loose parts atelier and play dough corner is set-up in the lobby of the school to encourage curiosity, celebrate different perspectives and enable inquiry-based learning. The role play corner offers experiential learning; the math atelier promotes life skills such as critical thinking, logical reasoning and problem solving. The herb garden set up in the outdoors is perfect for children to explore nature and different fragrances and textures. It further adds to their knowledge and understanding of the world as they learn the names of different herbs and their uses.

At Vivero, we also believe that technology plays a vital role in today's learning process. Hence, we have a unique Tech Studio designed with Apple configured devices. Children from Nursery to Kindergarten 2 have access to iPads with pre-downloaded child friendly educational applications for their research and to revisit concepts introduced at school. 'Cubetto' and 'Dash', our two robot aides that make learning more meaningful and fun.

Vivero International, Sector 62, Noida

Vivero debuts in Delhi NCR in the familiar locale of Sector 62, in Noida.

With a proven curriculum offering of a unique research based early year's education along with an enriching child care programme designed for the age group of 6 months to 10 years; Vivero International Pre-School & Childcare is backed by a strong assurance of quality & an exceptional learning environment for infants, toddlers and pre-schoolers under the care of trained care-givers & facilitators.

Every corner & section of the indoors and outdoors is designed to go beyond their functionality as just learning spaces as Vivero specializes in the method of encouraging children to inquire, think and learn. Our Apple-enabled Tech Studio is one of the features of the integrated curriculum on offer while the range of learning resources including manipulatives bear the distinctive Vivero trademark of 'rich & stimulating'.

High standards of quality-audit at Vivero mandates the provision & maintenance of standard safety, health and hygiene at all times. The environment has been timely updated with the inclusion of top quality 'Air Purifiers' for the young learners. Strategic CCTV surveillance, daily temperature checks, 24 hour security, biometric entry-way, verified background clearance of all support staff, scheduled fire drills & weekly deep sanitization of the school to ensure that early years learning & development is taken seriously.

The school features an in-house kitchen that provides fresh & balanced meals. A nutritious menu plan is diligently followed, ensuring children get to experience enjoyable, healthy meals in our care.

Event Report

At Vivero, we continuously engage in the process of exposing our children to multi-cultural experiences. We strongly believe that working with families is the first step to achieve our goal as we strive in partnership to help children accept, understand and value the rich and varied world around us. Together, we prepare children to meet the challenges and reap the benefits of the increasingly diverse world. This way, we foster an active environment for children to celebrate their distinct values and to be proud of themselves and their familial traditions.

Nam Ooru Habba

Vivero Carnivals bring parents and children together to ‘celebrate childhood’ and revel in the joy of harmonious community living. The Nam’ Ooru Habba’ event was one such grand carnival that took place at few of our schools in Bengaluru.

Grand Welcome

Traditional Village set-up

Habba - Bringing people together

A typical Durga Pooja lighting set up

Traditional horse puppet at the fair

The joy of the Potters' Wheel

Vivero International, Whitefield went all the way and beyond to bring the spirit of ‘Habba’ which means ‘festival’ in the local lingo into the school premise. The event’s ethnic dress code brought out the vibrant colours of India. All facets of the ‘habba’ was showcased with handmade decorations such as the attractive streamers, beautiful rangoli and glittering diyas. It was a melange of performances by parents and children; a traditional puppet show; food stalls offering delicious Indian sweets and savouries; flea market and exciting prizes. What was even more delightful, was to see every child and parent tap their toes and rejoice to the traditional ‘Dhol’ music. The evening gave an insight into the richness and magnitude of the ‘habba’ as it brought together cultures, values and gave everyone just another excuse to celebrate the human spirit!

At **Vivero International, RMZ Ecoworld**, the event re-created the ‘feel’ of a traditional Kannada village fair for the children and their parents to experience. Children excitedly rushed towards the traditional kitchen set-up and tried their hands at grinding the ‘ragi’ in a ‘chakli’; sieving the flour and making ‘rotis’. Various rustic games were organised based on the popular ones which are played in villages such as ‘Pagade’ and ‘chowkabara’. Taking turns at milking a live cow added to the experience as well. Toddlers and infants tried on traditional attire from the dress-up-corner. The event wrapped up with a beautiful ‘Dandiya’ performance.

Vivero International, Sarjapur too, turned into a ‘celebratory mode’. The event depicted ‘four’ different ways in which ‘Dussehra’ is celebrated across India. Diverse forms of the same festival came alive as ‘Dussehra’ from the North, Navratri from the West, Durga Puja from the East and Golu of the South.

Highlight of the celebration was definitely the ‘Kathputli Naach’ (Puppet show) to the tune of a Rajasthani song with ‘Dhol’ and Puppet Horse. The evening ended with the blowing of the “Shank (Conch Shell)”, ringing of the bells and the trademark ‘ulu-dhwani’ followed by the Sindoor-Khela as the event drew to a close. No festival is complete without a little bit of shopping and yummy food and the crowd were not disappointed here too!

Meanwhile, at **Vivero International, Indiranagar**, parents were welcomed with the pulsating beats of the folk-drummers. Little girls were treated to pretty bangles and ‘bindis’ while boys sported finely-curved moustaches drawn on their faces. From parrot astrology to the potter’s wheel and rustic board games with cowrie shells and amusing bullock-cart rides; almost everything was reminiscent of a traditional village fair. Spirits ran high as parents too volunteered to put-together song and dance performances. In short, the evening transported everyone to the magical and vintage charm of a ‘festive-fair’!

Halloween Pop Up

Vivero has taken every possible opportunity of celebrating the cheer and joy associated with prominent festivals from around the globe.

For **Vivero International, Powai**, The Halloween Pop Up was one such event where everybody looked forward to the day when they could ceremoniously dress up as witches, wizards, ghosts, and many other characters.

'The Pop up,' had children and grown-ups walk into the thematically decorated arcade with their friends and families, super-charged with excitement and wonder. It was no surprise that by the end of the day, the event had witnessed close to 3000 people. The grand fiesta of food, music, dance, and craft went on seamlessly while the entire stretch of Vivero International Powai buzzed with positive energy and crackled with excitement. Handcrafted ghosts, skeletons and witches were seen ready to zip-zap-zoom. Creepy cobwebs, scary spiders, serious scarecrows, an eerie pumpkin-patch, and paper lanterns all added to the Halloween vibe wonderfully. The environment was electrifying with lively music, goofy games, yummy food and happy faces. Children engaged in fun activities like meet 'Po' from 'Kung Fu Panda' organized by Cadbury's. Kidzania ensured a larger-than-life experience to one and all. It was however, the children's fashion show that set the ball rolling at the 'peak hour' where children dressed up as pumpkins, fairies, butterflies and superheroes. The **Halloween Pop-Up 3rd edition** was an extravaganza that was worth waiting for and turned out to be an event that only gets bigger and better each year.

Vivero International Pre-school and Child Care, Wakad hosted a Pre Halloween bash for all our youngsters on the 19th of October. The pumpkins, bats, witches, the creepies and crawlies, all had a fantastic time at school. Children engaged themselves in balancing on spider webs, and finding eyeballs and also knocking the ghosts out with pumpkins. Kudos to all our brave hearts.

Hands on experience: making Monster rocks

Scary Bunch

Treasure hunt

Scary faces at the Spook-Fest

Fun activities for the little ghouls

Movie Nights

At Vivero, every event is a special family occasion and much effort is put to ensure a fun filled evening for both the little ones and their parents, as they come together to bond, unwind and recharge.

As Movie Night magic continues at **Vivero International Preschool & Childcare**, this time it was the schools at **Madhapur, Kondapur and Hitech City in Hyderabad** where three separate events became the talk of the town.

Set amidst a comfortable arrangement with low-seating and an aquatic tone décor all around; the magical underwater world of 'Finding Nemo' was brought to life on a large screen. It was a delight to watch the interesting journey of 'Marlin' and 'Dory' as they set about, searching for their lost friend 'Nemo' and their extraordinary underwater adventure filled with lessons for life and the joy of family and friendship.

Teachers also engaged with some children who chose not to sit and watch, with intriguing underwater-theme activities like "Feed the Shark", "Fishing Nemo" & Tattoo Fish. Children enjoyed collecting their popcorn by exchanging their ticket stubs at the pretend-ticket-counter. It was indeed a brilliant mix of real and 'reel-fun' for our little ones, allowing them a pleasant evening filled with relaxation, entertainment and family-time.

Meanwhile at **Noida**, the Movie night event ensured a fascinating experience for children and their parents.

The event came into being out of a unanimous idea for an 'entrepreneurial exercise' which is an important part of the 21st Century life-skills in line with Vivero's unique curriculum. Through this concept, children were made to understand the process of a movie-going experience first-hand. The little learners found themselves learning how to withdraw money from the 'Vivero Bank' and then understanding how to spend as they bought the movie tickets from the 'Ticket Counter' along with their tubs of popcorn for the evening.

With the entire premise decked up in accordance of the jungle theme, the overall ambience matched perfectly well with the selected movie for the evening - Disney's 'Bambi'.

Bunny and squirrel puzzle solving

Withdrawing cash from the Vivero bank

Following Bambi's hoof-steps

Christmas Celebration

The Christmas Fete organized on the 14th of December at **Vivero International, Powai** was one of the most eagerly awaited annual event for all. This event was a complete 'Friends of Vivero' initiative and the focus was on generating funds for an NGO 'Vatsalya' (a home for Orphans).

The school was decked up in bright Christmas colours of green, red and white. Christmas festoons of red and white balloons, dangling mobiles of candy canes, stuffed stockings, festive wreaths and happy Santa faces, made by the children at Vivero added to the spirit of cheer all around. Game-stalls and activities like treasure hunt, ball pool, balloon sculpture and tattoo making kept everyone happily engaged. Mouth-watering food stalls served endless cake pops, cupcakes, sandwiches, biryani, kebabs, popcorn, candy floss and the all-time favourite chaat.

It was heartening to see the children and care-givers from the NGO, Vatsalya enjoying themselves too.

Christmas gifts

Tattoo art

Santa surprise

At **Hyderabad** the 'Winter Carnival' arrived with Christmas bells ringing and an unmissable chill in the air. It was surely time for some 'winter fun' as all 3 Vivero International centres came together to celebrate the spirit of Christmas and welcome the New Year.

The entire place buzzed with many fun activities, tantalizing food-stalls and a variety of Christmas shopping options. Engaging activities and game-stalls were arranged in tune with the theme of a 'winter carnival' as children took eager turns to feed the 'Adorable Snowman' with snowballs. The event reached its peak with Santa Claus' doling out gifts and candies to all children with melodious Christmas carols playing in the background.

With much cheer and merriment Christmas came early to **Vivero International, Kharadi, Pune** The Carnival which was a grand success saw more than 450 children and adults gracing the occasion. The entire school was lit up to resemble a winter wonderland with fairy lights, snowmen and a real Christmas tree. Parents dropped off presents for their little ones under the tree for Santa to distribute them during the course of the evening.

The events in Bengaluru at Vivero International Sarjapur and Mahadevapura was a culmination of the season's festive spirit in its myriad hues.

What's the Buzz

Co Curricular Activities at Vivero

In our continuous effort to make the child's early years' journey with Vivero an experientially delightful one, we ensure that we inculcate meaningful habits and introduce healthy co-curricular activities as part of our Childcare offering.

Children are offered a wide range of co-curricular activities that are age-appropriate-Yoga sessions, Tech-Studio activities, Music & Movement, Culinary activities, Karate classes and Skating at many of our centres. At Vivero, specialists from respective fields are carefully selected and invited over to come and conduct these programs so as to add the desired value addition to our programme.

In recent times, the integration of Technology and Culinary-skills have proven to be perfect choices as they have remarkably benefitted children.

Technology

At Vivero, we embrace technology as a tool to enhance the process of learning and development rather than make it the sole medium of learning.

The programme, the gadgets and the apps are designed with the child in mind; simple to comprehend and easy to use. Our tech expert ensures that the teachers are trained and well versed with the usage of technology beforehand. During the tech-sessions, children visibly demonstrate increased levels of spoken communication and collaboration. Technology brings out positive effects on the cognitive and social learning skills of children too as it is generally observed that children begin to take leadership roles, share ideas on the I-pads and work together with their peers.

Age-appropriate tech curriculum

Cubetto session

Culinary

Happy Chefs make tasty meals

At Vivero, we believe that the best way for children to learn and develop is through self-experience and we consider that it is never too early to begin this process. Only through exploration and discovery can learning be fulfilled which is why we have introduced our culinary program as a major part of our childcare co-curricular activity.

Cooking is an interactive affair! It encourages working together and taking turns. It helps to build self-esteem when the child contributes towards the accomplishment of a task and works together as part of a whole group. Children also learn about taking initiatives, responsibility, cooperation and leadership skills. It also provides an unending amount of opportunities for touching, smelling and tasting all the new aromas and flavours.

To add to the experience, we also integrate table etiquettes as part of our culinary program. Plating and organizing the meal table are tasks best experienced by the children. We encourage a buffet system for the older children to inculcate a sense of ownership and responsibility too. Children are then encouraged to place their soiled plates and napkins in designated spaces.

The experience of creating meals using appropriate techniques and working together for the preparation and clean-up process all help to build numeracy & literacy skills as well as lay the foundation for healthy eating choices. Culinary undoubtedly plays a vital role in developing the life skills of our children.

Vivero Child Care Testimonials

Vivero Day care is the second home for our kid in terms of attention and affection. My daughter Seerat, has been with Vivero Childcare for a long time now and is extremely happy. She looks forward to going to school daily. All teachers and staff are very kind, helpful, generous and caring and always welcome kids with a broad smile. When I am at work, I am tension free knowing that my kid is in safe hands and well taken care of. All the staff members are approachable and the best thing is that there is a daily report, weekly updates including weekly menus that are shared in a very organized way. This is highly appreciated. The regular music/karate/storytelling and other activities keep kids engaged and happy. Vivero also keeps parents involved with well-coordinated activities and regular PTMs. Overall, I am a very happy and satisfied parent and glad to be a part of the Vivero family.

Jasleen, Mother of Seerat

Our elder son started going to Vivero when he was 10 months old. We have seen significant development in him. The teachers and the staff are very caring and the daily activities are designed so well that the kids are not only engaged but get help in their socio-emotional and physical development. Our twins also started going after they turned 1. I must say all 3 of them are very comfortable there and love going to the daycare. There is always something new for them to explore and learn each day. This makes them become more and more independent which is very important.

Shafi Babar & Saba Sayeed, Parents of Adeel, Norah & Alina

Our daughter Kavya started her journey with Vivero when she was about 21 months old. Our caretaker had just quit and being working parents we were looking for a safe and homely environment to take care of our little daughter.

Vivero has been a wonderful place which is almost like a second home to her. Kavya was not comfortable with unknown adults and would cry endlessly if we were not around. At childcare, all the teachers and the support staff helped us enormously with the settling process. In two-three weeks, Kavya became comfortable with the staff.

Today, Kavya attends Prenursery at Vivero and then shifts to the childcare after her school is over. She enjoys all the activities, specially the rhymes sessions. She has grown as a person - independent, has improved vocabulary, can communicate better than before and most of all, is engaged in meaningful learning activities.

We are really thankful to all the teachers and the support staff for taking great care of our daughter. It's a great experience at Vivero not just for Kavya but also for us!

Deepa Ravishankar & Vijay Balakrishna, Parents of Kavya

We enrolled our son Riaan into Vivero International pre-school and daycare when he was two years old. I cannot thank the staff and teachers enough for taking extra care to ensure each and every child is attended to. The school/daycare maintain a high standard in their hygiene and their attention to quality in every aspect of child care. All the teachers and staff are very friendly and patient and they are available whenever we want to talk about our child's progress. We get weekly updates on the activities held in the class. Riaan loves to go to school and is very happy there. I would recommend Vivero to all my friends who have young kids.

Sujit Joseph John Kattoor & Jaya George, Parents of Riaan

Our child started Vivero Child Care few months ago and she loves it! As a 3 year old this is her first experience in a Childcare. We as her parents are fully satisfied with everything in Vivero. All teachers and facilities, including security guards have a committed sense of punctuality, duty and experience. We especially appreciate the range of activities through-out the day. As we are foreigners, Yasmina did not know English at all before coming to Vivero and now she has started speaking and learning a lot of words. My child comes home and keeps asking for the time when she will go back to school. So, we love Vivero, and wish them all the best.

Gordienko Lyudmila & Eldorbek Ortikboev, Parents of Yasmina

We wanted to share a note of appreciation for the teachers in Child Care. They have been phenomenal with our kids, ever since they joined Vivero. To be honest, like most other parents, we were concerned when we learnt that the previous teachers would be leaving but now we can see that the current ones have raised the bar even higher.

Our daughter, Erum loves the time she spends in Child Care and has numerous stories to tell regarding what happened through the day. We are particularly impressed how the teachers' efforts have led Erum to try out new foods.

The time in Child Care is not only fun but there is ample learning, which is great since it keeps the children mindfully engaged. The teachers have been doing a great job, and we wish they continue to do so

Ritza and Kartik Varma, Parents of Erum

Reaching Out

Facebook Page

In our endeavour to stay true to our promise and create a community of parents, learners and educators. Our dedicated Facebook Page is consistently updated from each of our Vivero International Pre-School & Childcare centre to reach out to this community. This is one of our earnest ways in which we try to keep abreast with the dynamics of communication in current times.

So, log in now, check-us out and be informed as to what's been happening at the school lately. Find out about upcoming events, special announcements, or get to know more about experiential learning at the nearest Vivero in your neighbourhood. Stay connected; stay updated with Vivero Facebook.
