Expressions - Unit of Inquiry

The Vivero curriculum is ever evolving. Its inspiration takes root from the Reggio philosophy and continues to branch out and bloom through collaboration, meticulous planning and a whole lot of passion. Every Unit Planning goes through a rigorous session and the effort behind this shows in the way every Unit of Inquiry takes place.

## The Chairman's Note

Dear Parents,

We bring you this edition of the Edvance Times with a proud beat of 'drum-rolls' as Vivero International gets bestowed with prestigious awards. We are pleased to announce that Vivero International has been recognized as a **'Great Indian Pre-school 2019' - Forbes 'Great Place to Study'; Best Child Care and Pre-School Organization and also 'Ranked as No 1 in Pune' and 'No 3 in Maharashtra' in the PreSchool cum Daycare category –Education Today**. We are thankful to the entire Vivero parent community, our tireless Teachers and Care-givers and to our dear 21st Century learners for making this possible.

While it has literally been 'raining accolades' for us, let us also take a minute to realize that the extended and incessant rains this year is a stark reminder of 'climate-change'. As Life-long learners and future change-makers, children at Vivero are continuously made aware of how every little positive effort can go a long way in helping the environment and we trust the same is inculcated at home too. Some of our schools have participated in reaching timely aid to the needy during the natural calamities.

Vivero believes in celebrating childhood and facilitates the children to organise joyous environments with emphasis on experiential learning. This year kicked off with a brilliant version of 'Back to School – Adventure Awaits' at our schools in Bangalore. It was followed by eco-friendly tributes to 'Ganpati Bappa' in a few of our Pune schools along with a week-long dedication to the importance of 'Literacy'.

Meanwhile, find out what is 'abuzz' at Vivero as we ready ourselves to launch 'Yo! Vivero Radio' - a first-of-its-kind radio-broadcast feature in a pre-school landscape.

Expanding the quest to share our much-recognized excellence in the field of early years education, Vivero opens two schools to welcome children and parents at Pimple Saudagar, Pune and Sector 62, Noida. Stay tuned to find out more about the new Viveros in our 'Inside Scoop' section as well as our website.

As you are aware 'communication' is the prime factor in all our efforts and every year we take intricate measures to upgrade our methods to make it more and more viable. This time around we reintroduce the benefits of the Vivero App and encourage all parents to connect with us through the touch of the icon; in the palm of your hands.

Finally all Vivero schools are currently pursuing meaningful activities with the children as we inquire, think, learn and bring to life the words of Loris Malaguzzi - "Our task is to help children communicate with the world using all their potential, strengths & languages and to overcome any obstacles presented by our culture".

I wish you a joyous festive season and look forward to connecting with you again through our next Newsletter.

Dr. Arun Arora  
Chairman, Edvance Group

## Mentor Corner

### *Expressions - Unit of Inquiry*

Every child has a unique perception

Expressing with the help of character puppets

Role play is a powerful tool for expression

Through the process of inquiry, children at Vivero construct much of their understanding of the natural and human-designed worlds. Inquiry implies a "need or want to know" inkling. They are encouraged not to seek the right answer (because often there is none), but rather seek appropriate resolutions to questions and issues. Our teachers nurture inquiring attitudes or habits of mind that will enable learners to continue the quest for knowledge throughout life.

At Vivero children carry on this process of inquiry from the time they step into school until the time they say 'goodbye' to their peers and teachers. Their process of inquiry begins with gathering information; applying that knowledge and making connections with the learnings in their day to day lives

**How We Express Ourselves** is an inquiry into the ways in which we discover and express ideas, feelings, nature, beliefs and values. Expression is the way in which we reflect on things, extend and enjoy our creativity or simply show our appreciation of the aesthetic.

Children of K2 at Vivero International schools across the country recently inquired into the central idea of 'expressions' through the theme of "Everyone has a Story to Tell." This became an interactive brainstorming and mind-mapping session revolving around the important elements of characters in a story, setting, plot, ending. Building on the children's background knowledge about stories, narrative and expression, as well as previous experience working with a wide range of art materials, it was proposed that they use a design process to gain a better understanding of the central idea. They researched different fictional and non-fictional stories from around the world for inspiration. The children then created and narrated their own stories from their day to day lives. As a learning community, there was abundant thoughtful discussions and reflections among the learners and facilitators. Throughout this process, children identified with their favourite characters with a range of storytelling experiences.

They eloquently and passionately 'expressed' each characters' strengths, traits and dispositions through a spontaneous dramatic play presentation. There was also a more open-minded perception about which stories were more interesting for a few of them and why? Children worked collaboratively to build their understandings in various ways, which further helped them express themselves through many new exciting experiences and interactions with each other throughout the unit.

## Planning the Unit

What sets us apart as an early learning centre at Vivero Pre Schools and Childcare is an unmistakable blend of human commitment, provision of state-of-the-art facilities and our unique and ever-evolving curriculum. We take tremendous pride and dedicate hours of sincere effort while planning each unit that constitutes our academic session. The unit meeting is held during the term break after every unit where all Facilitators get together as a single unit in the city to ensure a seamless and meticulous plan is in place.

Each teacher shares her list of engagements as per a particular domain and this is discussed in detail to assess and understand the outcomes and learning goals. Teaching aids, art materials, books and other resources that are linked to the unit are deliberated upon and the requirements for all engagements spanning the duration of a complete unit are noted in advance. Plentiful research and in-depth planning of tech initiatives, ateliers, excursions, incursions is done in anticipation of the unit-culmination along with the unit-takeaway. The meeting gives us an opportunity to share, enhance and enrich the classroom learning at every level as well as ensure that best-practices receive their due recognition and execution. Only with proactive thinking and collaborating can we ensure a smooth transition into the new unit.

## Jolly Phonics

Every year Vivero organizes a Jolly Phonics workshop for all teachers in order to coach refresh and further strengthen their understanding of the subject. The sessions majorly cover the broad difference between Literacy and Language and then moves on to illustrate appropriate methods in which sounds and letters can be introduced to young children for their better understanding.

These workshops also explain what is the Jolly phonics approach and effective way to introduce phonics to children as they relate better to the sounds of alphabet/words. The idea 'Jolly Phonics' believes in 'learning by doing and not learning by knowing.'

Jolly Phonics teaches educators to break down the method into simple steps such as;

- Letter sounds
- Letter formation
- Blending and Identifying sounds in words and
- Tricky words

The session is almost always very interactive and a productive one. This year, the workshop at Vivero Powai, was conducted by Ms.Bajpreet, a professionally acclaimed trainer in Jolly Phonics belonging to the education fraternity for the past 18 years.

Learning the right sounds

## The Inside Scoop

### *New Vivero Alert!*

With a brand new centre at Pimple Saudagar, Vivero International sticks another feather in its cap as a successful Pre-School and Childcare name in the region.

Inspired by the Reggio Emilia approach, the pedagogy at Vivero centres on the image of the child and the 'Environment' is seen as the 'third teacher.' All learning spaces at Vivero are set up with artful corners and thoughtfully selected 'manipulatives' that inspire children to inquire, think and learn. Children can choose from a range of learning corners that are intentionally set-up around the premises, be it the Art atelier, 'Picasso Point'; Music and Movement Atelier or the Sensory corner. These extraordinary learning ateliers are intended to offer a welcome environment for children where they may freely investigate their surroundings and avail a wonderful opportunity to enhance critical thinking, imagination, interest and mindfulness.

Co-Curricular Activities at Vivero are led by experts as a part of the enriching pre-school schedule with customary music sessions, introduction to a foreign language, sports and wellness classes.

The Tech-room on the third floor is designed to encourage and facilitate a conducive learning environment for our 21st Century Learners and offer well-informed and guided access to modern innovation. Our in-house tech residents, 'Cubetto' and 'Dash' act as learning companions for children of K1 and K2. Vivero is proud to pioneer an age-appropriate integration of modern technology and innovation into the academic curriculum.

## Event Report

### *Back To School - Adventure Awaits*

At Vivero International, we believe that "the wider the range of possibilities we offer children, the more intense will be their motivations and the richer their experiences."

The academic season at Vivero International always opens to a jubilant environment at every Vivero Pre School and Childcare each year. Abuzz with excitement and promise of adventures, the days quickly turn into weeks as children get comfortable and settle into their daily routines of learning through fun, wonder and discovery. And soon it is time for the very first event of the ongoing session, 'Back to School.'

This July, parents were invited to learn new skills, explore new possibilities and find their very own exciting answers along with their child. This was indeed one thrilling journey for parents as they engaged in activities and overcame obstacles, all the while discovering the joy of the learning corners, inviting ateliers and doting facilitators. 'Back to School' 2019-2020 was aptly titled 'Adventure Awaits' as parents and children recognized the meaning of life-long learning.

Associating words with the picture

Indulging in messy play

The ball pool is always a major crowd puller

Bonfire

Fun with numbers

**Vivero International, RMZ Ecoworld in Bangalore** saw the awesome adventure begin with infants and toddlers as they entered the world of Ancient Egypt. Children were absolutely intrigued as they were led towards enticing mazes and curious puzzles. Games like 'treasure hunt' and 'snakes & ladders' were a 'hit' with parents who were seen enjoying and reliving their childhood days.

"Actions speak louder than words!" is a well-known phrase, and for a good reason! As forerunners of play-based teaching method, at Vivero, we teach our children the importance of kinaesthetic learning by encouraging a 'hands-on' approach to build better understanding. This style of learning helps them absorb and assimilate information more effectively. We believe that children learn best and acquire information through real-life activities. In view of this, **Vivero International, Whitefield** held a well-planned 'Exploration Trip' at their school premise. They recreated the look and feel of a rustic adventure trail both for parents and children. It was wonderful to see them participating in this fun journey of discovery and problem solving with their little ones. It reinforced the fact that parents are truly the child's first teacher; role models and learning coaches! At Vivero, we simply love the fact that we are together in this adventure along with our bright young learners. We solemnly promise to keep creating more delightful experiences for our young explorers!

At **Vivero International, Sarjapur**, the new academic year quickly ushered in the celebration of Vivero's first seasonal event which was titled "Adventure Awaits". This was one exciting affair with heaps of surprises for both children and their parents.

Captivating stalls and stations lured all with the promise of a Maze, Gaming zone, Jungle escapade, Bivouac and Mystery roo. The infectious zeal and enthusiasm encouraged all the parents to reconnect with their inner child. Children and adults were thrilled as they navigated their trails through a network of twists and turns passing through and out of the maze. Programming 'Cubetto' to score a goal on the football field or sending 'Dash' to save the building on fire added to the excitement as children played with their friendly robots. Children and parents took time to explore the Twister Jungle trail, Tunnel obstacle course and The Mystery Dark room.

The army themed photo-booth was a popular space at the event and it added a different level of meaning with its tagline that said; "Live a Life Less Ordinary".

It is a known fact that adventure combined with learning goes a long way in enhancing the practical application of knowledge gained. **Vivero International, Indiranagar** also celebrated the adventurous joy of coming 'Back to School' with fun activities for children and parents alike.

Apart from the riddles hidden in the sand pit, tunnels, maze and dark room; parents and children at **Vivero International, Mahadevapura**, were prompted by the 'dice game' hop like a bunny and walk like a crab. The sponge bomb bucket race and move-on-up cup race had parents competing against each other. Sporting parents magically 'flew' across the room on the magic carpet – no hands were allowed! Each of these activities were examples of important developmental aspects of early childhood in order to enhance their cognitive skills, gross and fine motor skills, control and balancing to name a few. The crowded tattoo corner was also a hit with grandparents, parents and children wanting their favourite character painted on them. At the end of the adventure, parents and children were rewarded for their efforts with the infamous chocolate fountain. On top of all that, the bouncy castle entertained the children endlessly.

At **Vivero International, Global Tech Park**, it was their first big event as they welcomed all parents for an interesting morning at the campus where their children along with the teachers led them into their favourite learning spaces and showed fun ways to open up the mind and body!

For **Vivero International, Manyata Tech Park**, the 'Back to School Event' was filled with fun and frolic. Engaging classroom activities were planned for the excited and curious Parents -Child teams. The event had a special theme "Adventure Calling!" and it rightfully summoned all parents to the celebration.

The event was planned around the premise that we **learn best through play**. As they walked into the school, parents were greeted with a vast sandy space filled with pieces of clues everywhere. The activities began with a scavenger hunt where the parents had to decipher the clue or make sense of a riddle along with the children in order to play the game. These games were a happy example of promoting logical and analytically thinking as parents and children discovered hidden surprises using technology, improved spatial awareness by walking through a maze, built-up on their problem-solving and reasoning skills as they played the noodle game. The 'Dark room' encouraged the teams to explore the world using other senses rather than the ones we are generally accustomed to. All children went home with a bag full of skills and enough food for thought.

## Ganesh Chaturthi Celebration

Understanding of the world begins from your immediate surroundings. At Vivero, children learn to make connections with what they know by observing and taking part in the celebration of daily life. Special occasions help make this learning much more effective.

**Vivero International at Aundh and Wakad in Pune**, embrace the opportunity of learning more about the local culture by celebrating 'Ganesh Utsav'. This vibrantly popular festival saw children in their colourful festive attires as they got together to understand the significance of the festival through 'stories' and 'craftwork'. The focus was on bringing about an eco-friendly tradition of celebrating this age-old ritual. This tradition of bringing music, dance and gaiety to honour 'Bappa' found a unique expression as children with the help of their parents made 'Ganesh idols' out of eco-friendly clay and recycled materials. The event ended on a warm festive note as children relished mouth-watering 'modaks' over sweet conversations and a whole lot of 'giggles'.

Ganpati Bappa Morya

Children proudly display their creation

Children busy making their own Ganpati creation

## Literacy Week

As Dr. Seuss rightly puts it - "The more that you read, the more things you will know. The more that you Learn. The more places you will go." Taking this bright idea in stride, we at Vivero celebrate 'Literacy Week' as an important way to inspire love for reading and highlight the importance of books.

At **Vivero International, Kalyani Nagar in Pune**, the **Literacy Week** took place from 09<sup>th</sup> to 13<sup>th</sup> September 2019. The week-long event started off with a Story telling session by Ms. Smriti Rathi; author of children's book 'The Dream Seller.' Children enjoyed her interactive story-session which was filled with their favourite elements of 'dreams and magic'. The story whipped up unique childhood fantasies as the author prepared interesting topics full of exquisite ingredients for the customers who came to visit the dream seller's shop. The Literacy week also bore witness to a delightful 'Book Character Parade' where children welcomed the opportunity to come to school dressed-up as their favourite character from a beloved storybook. A fantastic variety of creative and colourful costumes flooded the

learning spaces at the school with the ever-popular Little Red Riding Hood, Puss in Boots and Rapunzel doing the occasional rounds. Witches, princesses and fairies as well as mythological characters like Sita from the Ramayana were seen here too.

A "Library-going" experience was also set-up for the Nursery, Kindergarten1 and Kindergarten2 children where the rules and codes of the Library were reiterated. Children revelled in the flow of the experience as they pretended to borrow books from the Librarian and even resorted to reading them quietly in the 'reading nook' which had been set-up. The week-long tribute to Literacy was made more interesting by several incursions conducted by parents as they read out stories and shared amazing incidents.

**Vivero International, Kharadi, Pune** also celebrated the Literacy week from 03<sup>rd</sup> to 06<sup>th</sup> September. Their week-long event abounded with an array of activities all geared-up for the sole purpose of igniting an interest in reading, creative writing and story-telling.

Children were introduced to popular authors like Eric Carle and Dr. Seuss through different story-narration by teachers. Various elements of a story, starting from the author's life, the characters and the background were artfully depicted. Children enjoyed sequencing the story cards on a board and related well to the puppet-shows that reinforced the stories visually. These activities provided a significant exposure to new words and their meaning to the children.

Kindergarten 1 & Kindergarten 2 children took turns to enact some of the stories like 'The Gingerbread man' and 'The Very Busy Spider'. It was a very entertaining and lively performance with handmade masks, props and vivacious characters.

The Literacy Week at Kharadi culminated with a story telling session by authors of 'The Dream Seller', Ms. Smriti Rathi here as well.

The literacy week turned out to be an extremely rewarding experience having met its objective of introducing our children to the world of books.

## What's the Buzz

### *YO! Vivero Radio*

"Music can change the world because it can change people." - Bono

While it never fails to 'clear the head, heal the heart and lift the spirit', 'music' has always been an integral component at Vivero where we offer an environment that continuously fosters a conducive nurturing ground for the future leaders and change-makers.

Music is an undeniably effective tool that is known to enhance a child's overall development. Lyrics, rhythm and tunes when combined help children understand 'things'; make sense of their thoughts and even articulate better. Music serves as a compelling creative outlet for children's tender emotions.

So, after much thought and careful deliberation of the musical element in our offering, Vivero International is now delighted to announce the integration of a structured music programme into our curriculum. 'YO! VIVERO RADIO' - the world's first 'Pre-School Radio Station' phenomenon in the country is now live.

In line with Vivero's mission to relentlessly pursue newer avenues to hone necessary early learning life-skills, this curriculum has been specifically designed keeping in mind the methods that have proven most effective with our children over the past decade. The curriculum has seen a successful initiation in Pune where we introduced it as a new 'learning atelier', this time in the guise of a 'radio broadcast' at Kalyani Nagar. VIVERO RADIO will now offer our young learners a unique opportunity to fine-tune their melodious voices and curious minds as they navigate and discover a bunch of critical 21st Century skills.

#### What to Expect with VIVERO RADIO

Children will be systematically introduced and exposed to all elements of music like pitch, rhythm, dynamics, and basic history of music. While music definitely encourages self-expression, it is also imperative that 'composition' and 'performance' become integrated as a part of this programme too. Through this exciting new routine, there will be regular presentations by our children in front of their peers which will endow children at Vivero with a whole new level of confidence and expression.

With this program your child will find himself/herself:

- Improving his/her communication skills, talk and express clearly
- Talking about an important theme or sing along
- Exploring various types of voice modulation
- Preparing to become mindful leaders of tomorrow
- Reading out a favourite piece of news
- Creating, sharing and exercising storytelling skills
- Working on confidence and public speaking skills

Please join us in our enthusiasm to welcome the budding RJs of Yo! Vivero Radio

## Achievements & Awards

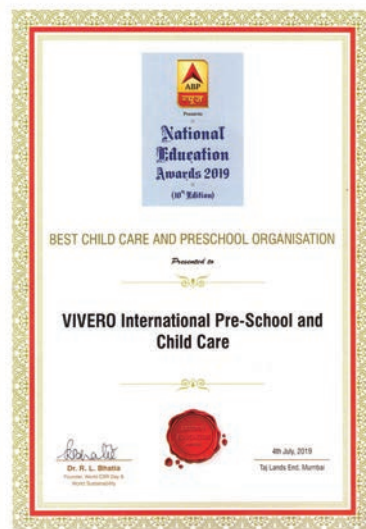

It has been raining ‘accolades’ for us as Vivero International recently made waves across various prestigious award events and flooded the trophy shelves with the following celebratory titles:

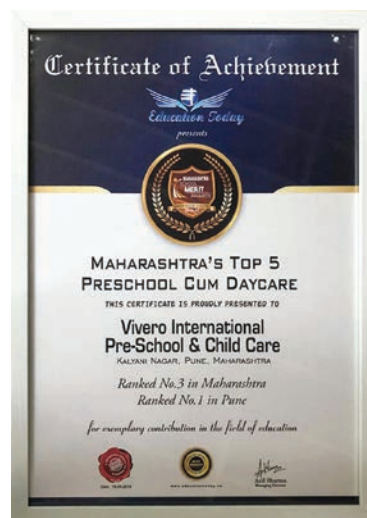

**Forbes India Marquee, May 2019**  
edition featured Vivero International as a ‘Great Indian Pre-school 2019’  
and has recognized us as a ‘Great Place to Study.’

**ABP News National Education Awards 2019,**  
awarded Vivero International as ‘Best Child Care and Pre-school Organization’  
at the ceremony held in Mumbai on 4th July 2019.

**The Maharashtra School Merit Awards 2019**  
felicitated, Vivero International Pre-School and Child care, Kalyani Nagar  
‘No 1 in Pune’ and ‘No 3 in Maharashtra’ under the category- Pre-school Cum Daycare  
in a survey conducted by EducationToday.

## Parent Chronicles

### *Vivero Child Care Testimonials*

I had to go back to work when my baby Ishani was just 6 months old and at that time I was unable to get anyone to look after her at home. I had decided to quit my job and stay at home to take care of Ishani but luckily Vivero opened a new school inside GTP campus. After hearing about all reviews and feedback from other Vivero parents I decided to sign up for their Infant Care program.

I am now back at work and also able to go to office free of any worries knowing that my baby is in safe hands. Vivero is like her second home where she is learning many new things and achieving her milestones on time. We are very happy to be a part of Vivero family.

**Sona, Mother of Ishani Dheeraj**

Vivero is a second home for Tanvi. I feel very happy & proud of myself for choosing Vivero for Tanvi when she says "I want to stay more hours in school ". She complains to me whenever I arrive too early to pick her up. The Vivero staff ensures that she eats well here & she has many friends too. It's been almost three years & more she is a part of Vivero, I have become a happier and more satisfied mother. I will never hesitate to refer Vivero to my other friends.

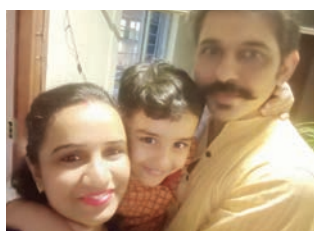

**Tarini, Mother of Tanavi Manwatkar**

The hardest time for a mother is when she has to leave her baby in somebody else's care. I enrolled Tavish when he was just seven months old at Vivero and now he is one year old and happy to be there. Tavish is really lucky for the love and care he receives at Vivero, GTP and I want to appreciate every teacher, staff and management for it.

I never thought that my 8 month baby will paint. My most memorable day was when I got the first happy mother's day card from Vivero with my baby's hand prints. I really thank Vivero for providing such a wonderful second home which makes it possible for me to work in peace. I am also at peace to know that I am always there, just next to my baby."

**Princi Alok, Mother of Tavish Alok**

It's been a long journey for Vedansh at Vivero.

If I may recall the 1st day of child care, I can visualise a crying baby of 14 months and a mother having so many thoughts in mind. "How will they take care of my baby?", "who will be there to hold him when he is crying?" "who will be there to ask him for food when he is hungry?" He was so small and could hardly express his thoughts or know how to approach someone for having his needs met. But, I am so happy to say that this is now the 4th year for him and Vedansh proudly calls Vivero his second home. Even if we move him to some other school later, his first memory of school and child care will always be Vivero.

**Sandip and Subashree Mishra, Parents of Vedansh**

The one and a half years of our daughter being with Vivero Daycare has seen her grow into a social, confident and independent little girl. Team Vivero has given us peace of mind as we know that our little baby is in a safe, caring and fun-filled environment every day.

**Namrata and Brendan Jacob, Parents of Caia**

I enrolled my son Avyaan, at Vivero International GTP when he was 16 months old, almost three weeks back. It took him two weeks' time to settle down and the staff at Vivero took great care of him. Now he is very comfortable and absolutely loves his school.

Few changes in his behaviour after joining Vivero which I observed made us feel wonderful. He started serving food to everyone at home as well himself. He likes to eat independently now and this is remarkable as it has happened over a period of two weeks since he joined there.

The extra quality care that the preschool provides, makes it a special place. Things such as the staff taking out time to capture little details about your child's day; who they may have played with, new skills learnt and simply just the kind of day they have had when you arrive to collect your child.

Thanks for always keeping me updated on his day. Thank you Vivero for providing a wonderful home away from home and helping him learn something new each day.

**Sonal Palam, Mother of Avyaan Kumar**

## HR Movements

### Pune

- Ms. Monica Desai has joined us as the 'School Head' at Vivero International Pre-school & Child Care, Pimple Saudagar
- Ms. Seema Singh Puri has joined us as the 'School Head' at Vivero International Pre-school & Child Care, Aundh. She has taken over this responsibility from Ms. Bhakti Bhatia who is re-designated to Senior Manager- Franchise Operations for Pune, Mumbai, Baroda and Chennai franchisees
